BUSINESS PROFILE GUIDELINES:

For consistency throughout the magazine we design the Business Profiles with the information and photos you submit to us. Business Profiles must consist of at least 500 words and are to be written in the second or third person - avoid personal pronouns such as "I", "my", "we", "us". Use "you" language or third person "he", "she", "it", "they". Content must have proper English, which includes proper spelling, grammar, punctuation, capitalization and sentence structure. We will certainly and gladly edit your submission to check for these.
